## Two Compton Brothers Killed in Car Crash Last Saturday Night

### Funeral Service for Both Held at Strang's Wednesday Morning

Funeral services were held at 9:30 a. m. yesterday at the Strang funeral home for Ralph L. Compton, 24, and Arnold Compton, 26, brothers, who were killed Saturday night in an automobile accident at Dundee rd. and Rte. 21.

Ralph lived at Millburn and Arnold at Druce Lake.

The two were in a car driven by Eugene Compton, 23, which was struck head-on by a car driven by Juan Rios Ynocencia, 21, of Mt. Prospect, who was critically injured and his companion Pedro Garcia of Mt. Prospect was killed.

Eugene Compton was treated for injuries and released from Condell Memorial hospital, but Ted Kaptain, 28, of Antioch, also a passenger in his car was seriously hurt, but will recover.

Charles Englehart of Round Lake said he swerved to the left to avoid Ynocencia who was crossing over into his lane at a speed estimated upward to 90 miles an hour, but the car sideswiped his right fender and then crashed head-on into the car of Compton following him.

Ralph and Arnold were thrown out of the car and killed instantly.

Ralph L. Compton was born Nov. 10, 1929 at Milwaukee, Wis., and with the family moved to Stevens Point, Wis. in 1937, later to Chicago and finally to Millburn 2½ years ago. He was a Korean war veteran, and recently was a partner in the Edgebrook Sport Shop. Surviving are the widow, formerly Lois Loneragan, two brothers, Eugene of Lake Villa, and Charles of Milwaukee; and three sisters, Mrs. Carrie Clendenning of Plover, Wis., Mrs. Florence Kaptain of Loon Lake, and Mrs. Dolores Koback of Stevens Point, Wis.

Arnold L. Compton, 25, of Druce Lake, Warren Township, was born April 16, 1928 in Milwaukee, and like his brother went with the family to Stevens Point in 1937, later to Chicago and to Druce Lake in 1953.

On his release from service in the Korean War he served as a salesman in Petersen's Market, Edgebrook, Ill. He and Miss Louise Holden were to announce their engagement at a party Saturday night. The two brothers and three sisters, previously mentioned, survive.

## Heating Season Warmer Than 1953 and Normal

The heating season that just closed was 7.4 per cent warmer than last year in the Chicago area which includes Antioch, according to information obtained by William Lahti, local oil dealer.

At the same time it was 14.2 per cent warmer than normal, indicating that this was the second winter in which oil dealers have lacked business because of unusually warm weather.

The percentage is obtained by taking the maximum and minimum temperatures and making a running total in comparison with the running total of normal temperatures. May was colder than normal, but it didn't make up for the degrees of extra warm weather piled up in previous months.

## 4-H Events for Month Include Camping, Day of Sports and Festival

Four-H Club members of Lake County have a busy schedule ahead of them for the next few weeks.

On Thursday, June 17, they will observe Keeping Fit Day when they will gather at the Grayslake High school for a day of sports and games and physical examinations by a medical student from the University of Illinois.

An estimated 100 of them will go to Camp Shaw-waw-nas-see near Kankakee, Ill., for five days of camping June 21 to 25.

On Wednesday, June 30 the annual Share-the-Fun Festival will be held at the Grayslake High school. All 4-H units may supply students or talent in competition and the best will compete in a district contest.

## Antioch Firemen Enjoy Convention at Zion; Equipment Is Praised

On the flip of a coin Wauconda won the prize for the best equipment at the Lake County Firemen's convention at Zion Saturday after having tied with Antioch and North Chicago.

Antioch drew a lot of favorable comment for her jeep which is equipped for use in fighting grass and swamp fires. The car can go where other heavier equipment cannot go.

Newport won the trophy for the best five-man hookup, and Fox Lake two trophies, one for the draft contest and the other in the water battle.

The Antioch firemen said the food at Zion was excellent, and all had a good time.

A sidelight to the parade was the fact that the Winthrop Harbor Rescue squad dropped from line on Lewis ave. to give first aid to a child who had developed spasms, and then got back into line before the parade was fully passed.

The Zion hotel management took advantage of the Waukegan aerial ladder to repair a flag pole and rope so that the flag can be used again.

The Zion million dollar fire was re-enacted so far as deploying of equipment was concerned. Antioch firemen participated and took their position they held during the fire.

## Legion Carnival Queen Contest Off To Good Start With 12 Entries

## Cong. Church Reports Depot Street Flashers Recommended by ICC

### Tells Mrs. Olga Pitner Plan For Financing Protection Sought

Mrs. Olga Pitner of Ingleside has received a letter from Congressman Margaret Stille Church saying that the Illinois Commerce Commission has recommended automatic flashing light signals for the Depot street crossing of the Soo Line tracks in Antioch.

The crossing is the place where Frank Pitner, Mrs. Pitner's son, and Elmer Hawkins were killed last year when their car was struck by a Soo Line train in the darkness.

"I have been advised that the engineers of the Illinois Commerce Commission have made a complete investigation of this grade crossing and that they recommended that the crossing be protected with automatic flashing signals," wrote Mrs. Church. "Negotiations are presently under way to arrange for a plan to finance the signal installation."

"The signal cannot bring my son back, but it can save some other mother's son from death," commented Mrs. Pitner who has been agitating for better protection at the Depot street crossing.

Deaths of the young people at Trevor last week are expected to bring home more forcefully to the Soo Line that this is becoming more and more a metropolitan area and that increased travel brings greater need for protection.

## County Meeting Next Monday to Promote Use of Dairy Foods

A county-wide meeting of representatives of the Lake County Farm Bureau, Chambers of Commerce, Civic groups, and retail stores will be held at the Legion Hall in Grayslake Monday to plan a dairy products promotion campaign.

Stanley Rouse, president of the Farm Bureau said two member delegates from each township will spearhead the campaign in their communities and the cooperation of business men will be sought in getting people to drink more milk and use more milk products.

"The Farm Bureau is solidly behind this campaign," said Rouse, "for we would rather be independent of government control through absence of subsidy, and this can be done only by getting people to use the surplus milk which keeps prices down."

"After all, milk still is the nation's cheapest food," he explained, "far cheaper now than coffee, and more nutritious."

June has been set aside by Governor William G. Stratton as Dairy Month.

## Lake Villa Woman Wins McHenry Bowmen Meet; Plan Social Meeting

In the women's division the winners were Clara Perry of Lake Villa, and Donna Renda of Grayslake. McHenry Juniors took all of the places in the class, Vernon Block being first; Mike Wirtz, second; and Norman Falk, third.

The next bowman meeting will be on June 15 at the Royal Inn, McCullom's Lake, and will be a social event with Clara Perry as chairman, assisted by Ed Olsen, Elwell Robinson, Art Evans, and Donna Renda. The bowmen are looking forward to one of the biggest events of the year—the Invitational—on July 18. Clubs from Illinois and nearby states will compete for trophies and ribbons. ## Band Concert Attracts Larger Crowd Tuesday; Rinaldi Next Soloist

Crowds keep increasing at the Antioch public band concerts another of which was held Tuesday evening at the village park.

The ground was sprayed with DDT and mosquitoes that bothered the bandmen the week previous were not around.

A bit of comedy was enacted when Dick Scott, school teacher, pretended to play a bit of classical music on a violin, and was routed by the bandmen themselves when all he produced was weird squeaks—all a part of the act.

The next concert two weeks from last Tuesday will feature a young virtuoso, Rinaldi, a trumpet player residing in the western suburbs of Chicago. He will play "Carnival of Venice."

## Gov. Stratton to Give Keynote Address at Convention Saturday

Some 5,000 delegates and visitors are expected to hear William G. Stratton give the keynote address which will highlight the party's State Convention at the army in Springfield, Saturday.

Carlos W. Campbell of Springfield, chairman of the committee in charge of convention arrangements, said plans are being made "to take care of all those who want to attend."

A mid-day parade through downtown Springfield will precede the business sessions. The parade will form at 12:00 noon (DST) at Fourth and Jackson.

Everett M. Dirksen, U. S. Senator, will give the principal address and Les Arenas, majority whip in Congress, will deliver the welcoming address to the convention. Joseph T. Meek, candidate for U. S. Senator; Warren E. Wright, candidate for State Treasurer; and Vernon L. Nickell, candidate for superintendent of public instruction, will also address the convention.

The convention will also write a platform to back the state ticket and name candidates for University of Illinois trustees.

## Martin Pitches First No-Hit Game of Year in Little League Play

Ed Martin of the Giants pitched the first no-hit game of the season Sunday in the Little League game between his club and the Yanks in which the Giants won 16 to 1. Although he blanked the Yanks so far as hits were concerned his opponents were able to push a run across on errors which robbed him of a shut-out too.

The Sox also jumped on the helpless Yanks the Wednesday before to the tune of 20 to 3. The game was called in the fifth because of darkness.

In the second game Sunday the Dodgers beat the Cubs 6-4. The Sox players are leading the league in number of batters with 333 per cent or better. The standing in batting is:

## Big Bucks "Money" for Antioch Shoppers Proving Quite Popular

### Chamber of Commerce Declares Shoppers Bus Service a Success

Big bucks are commencing to be given out in numbers by merchants as Antioch shoppers gradually become aware that in addition to the low prices they pay for goods here, they get certificates with their purchases which they can use as "bidding money" for merchandise to be auctioned July 31.

This was the information handed out Monday at the Antioch Chamber of Commerce at its dinner meeting at Smart's Country House. The chamber is sponsoring the project.

With each purchase of a dollar or more, Big Bucks in denominations of \$1, \$5, \$10 or \$20 are given out according to the amount of the purchase. On July 31 at the Antioch Township High School these can be used as payment in the bidding on merchandise to be put up by the merchants.

The members of the chamber were told that the free shopper bus service is becoming more popular and that if the number of Grass Lake shoppers continues to increase, an extra bus will have to run. Only on the Trevor run is the schedule in need of improvement.

The Chamber of Commerce agreed to pay the cost of lighting a public telephone booth which will be placed under the canopy at the R. G. (Bud) Holtz tavern and Bruno Manzano was appointed to hire an electrician to do the work.

### Bringing Meat to Your Table

Everyone knows this country has a meat packing industry. But probably many people haven't too accurate an idea of why it exists, and what happens to the money that passes through its hands.

The reason for its being is plainly shown in a simple set of statistics. According to the latest available government figures on the subject, the states west of the Mississippi account for 62 per cent of our livestock production—while 69 per cent of all the meat is consumed in the states east of the Mississippi. In other words, the major livestock-producing areas and the big consuming areas just don't match up. The packers' job is to get meat from where it is grown to where it is eaten. It's a highly competitive field, too—there are more than 4,000 meat packers and they are located in every section of the country.

The story of what the packers do with the money they take in is an interesting and significant one. In a recent year, out of each sales dollar—which means their income from all sources, by-products included—they paid 77.6 cents for livestock and other farm products; 10.9 cents for payrolls; 9.8 cents for other necessary expenses, and 1.1 cents for taxes. This left them with six-tenths of one cent, which was their net profit. It's evident that if they'd made no profit at all the consumer would never have noticed the difference in the price paid for meat.

### Play Ball

The 1954 baseball season is well under way—and legions of fans are once more reveling in the national pastime.

Many diverse factors are involved in making a baseball season possible, and swift and dependable transportation is one of them. The 16 major league teams alone will have traveled more than 200,000 miles, the equivalent of eight swings around the world, by the time the last game is played next fall. And these clubs do some 90 per cent of their traveling by train, in the area bounded by Boston, Washington, St. Louis and Milwaukee. The railroads involved make elaborate arrangements to assure that the teams will move with the clockwork precision that is necessary to keeping the schedules. And they must be prepared for unpredictable changes, such as postponements and suddenly arranged double-headers.

This is just one interesting little illustration of the manifold ways in which the railroads contribute to the pleasure of the American people, as well as to the strength of the American nation. Every hour, day and night, the rails move the equivalent of almost 70,000,000 tons of freight one mile; transport, figuratively, more than 3,600,000 passengers one mile; handle

20,800 express shipments and 1,300,000 pounds of mail—and, last but certainly not least, pay \$135,000 in taxes. The railroads are about as indispensable as anything on earth can be.

### The Problem of the Medical Schools

There are 79 medical schools in this country. And, because of the mounting cost of medical education, they operate at a deficit of some \$10,000,000 a year.

There are two ways by which that deficit can be made up. One is by government subsidy—which would inevitably lead to political domination of medical education, and would be a stepping stone toward socialized medicine itself. The other is by obtaining sufficient support from private business and businessmen to balance the books.

That is the job of the National Fund for Medical Education, which was formed in 1949, largely under the leadership of President Eisenhower when he headed Columbia University. A long list of distinguished citizens constitute its officers and trustees. It works closely with the American Medical Association and the Association of American Medical Colleges. It is now undertaking a nationwide campaign to show the nation how vital it is that the schools be adequately supported. The money obtained goes to fill faculty vacancies, to purchase badly needed equipment and, above all, to introduce new courses based on rapidly multiplying medical discoveries.

American medicine's achievements have been magnificent. During the first half of this century alone, medical science has added 15 years to life expectancy. And our medical schools are roots from which such triumphs come.

### The Low Down From Hickory Grove

You know folks, something I can't get used to or see any sense to, is the way our Uncle Samuel seems to want to gather all his children under his arm—do everything for them—do their thinking—build lakes for 'em to swim in, like Tennessee—guarantee everything clear up to the front door knob of the undertaker.

The queer part is—most people have never asked to be taken by the hand—to be fed and clothed—supervised—directed—uplifted—regimented. Prizes that you win or fall heir to without sweat of brow are hollow—not appreciated one whit. Never were—and won't be.

Sambo should keep a weather eye out for the well being of some of us more or less lame and halt—that is okay—but he has gone plumb prodigal. He thinks, I reckon, that he knows where votes hang thickest—everybody has a price. That is where the Old Boy is not tuned-in on the majority station. He is listening to the nearby chatter—right there on Main Street in old Thriftless-town—as he sheds his coat and takes after the rainbow. From the days of Bat Masterson, Wyatt Earp, and Wild Bill Hickock, folks have had the spunk to make a go of it under their own steam. They still do. The time is ripe to sell out our Socialist sponsored kilowatt mistakes—cut out Govt. messin' with price fixing—reduce Govt. fumididdles and debt—bring back the right to prosper if you choose to work—bring back again, the U. S. A.

Yours with the low down,  
JO SERRA

### Manzardo Attends First Closed-Circuit T. V. at Chrysler Dealer Meeting

Bruno Manzardo, of Antioch Servicenter, Chrysler dealer for the Antioch area, has returned from Chicago, where he attended the first Chrysler sales conference ever conducted by means of closed-circuit television.

Several hundred of Chrysler's 3,300 dealers attended the meeting and were brought up-to-date by E. C. Quinn, president of Chrysler division, Chrysler corporation, on the division's plan to secure a greater share of the automobile market during the remaining six months of 1954.

The meeting was one of 26 held for dealers in hotels and theatres in major cities. The television broadcast, which brought Mr. Quinn and other Chrysler executives into contact with the whole dealer body, originated in New York City.

"Because Chrysler is number one in power this year with the 235-horsepower Fire Power V18 engine,

PowerFlite transmission, power steering and power brakes, combined with beautiful exteriors and interiors, we are stepping up our demonstration program so that more people can experience these Chrysler features for themselves," Bruno Manzardo said. "These features, plus Chrysler's forward-looking sales and service policies, are the reasons why Chrysler continues to score increasing sales successes."

### Boy Scout Honorary, Order of The Arrow, Starts Camp Trees

Some members of the Order of the Arrow, a national honor society for campers in the Boy Scouts of America, recently took a trip to camp Ma-Ka-Ja-Wan during the scout's week end which was held up there. They planted 4,000 seedlings to help in the conservation of the camp and also added about 5 feet to a chimney which they have been building.

The Order has also been holding elections in the troops to see who will be members. To be elected the scout has to be a scout camper (have camped out at least 175 days and nights), be a scout of first class rank, and be at least 12 years old besides having lived up to the scout oath and law. The Order is unique in that it is the only national organization in which the members are elected by non-members. He is elected on the basis of having given cheerful service beyond that which he is required to do. This is the first year the elections are being held on the shore in the troops, being held up at the camp before.

## Library News

An excellent addition to the reference department of the Antioch Township Library, Funk and Wagnall's New Standard Bible Dictionary, was presented to the library in memory of Dr. R. D. Williams. Arranged in a one-alphabet dictionary, place names, proper names, manners and customs of Bible times are defined and often illustrated by pictures or maps. The dictionary is designed to be of great help as a ready reference for all students of the Bible.

On the jacket of "Design Your Home for Living," by Mabel Trilling and Florence Williams Nicholas, the publisher makes this inviting promise: "Be your own creator and decorator with this new guide to the secrets of making any house a beautiful home." This promise is amply carried out in literally hundreds of illustrations of furnishings, garden plans, and accessories.

## Weigh Merit of GI Bill on Tenth Anniversary Supt. Swenson Asks

Was the GI Bill a success? This is the question posed by Franz A. Swenson, superintendent of the Lake County Veterans Assistance Commission on the approach of the bill's tenth anniversary June 22.

Signed as a law on June 22, 1944, the same month as the heroic D-Day invasion of Europe, by President Franklin Delano Roosevelt, the GI Bill known as Public Law 340, was heralded by the president as giving "emphatic notice to the men and women of our armed forces that the American people do not intend to let them down."

The GI Bill originally consisted of six benefits. The "big three," education and training, guaranteed loans, and unemployment pay, were administered by the Veterans Administration.

Other benefits included job-finding assistance... top priority for the Veterans Administration to build hospitals, and military review of veterans' dishonorable discharges.

**Government Pays Tuition**  
Education and training under the bill was paid for by the federal government and included tuition, books, fees and other training costs as well as a subsistence allowance ranging from \$65 to \$120 a month. GI loans, in nearly all instances were made by private lenders with part of the loan guaranteed by the Veterans Administration. The loans could be used for homes, farms, or business.

Readjustment allowances were paid to veterans unable to find jobs and maximum payments were \$20 a week for 52 weeks.

Today, only one of the "big three" benefits, GI loans, still is in full force, and its deadline is July 25, 1957.

Education and training reached its starting cut-off point July 25, 1951, and for the most part, veterans now in training are those who began before that date. The program ends July 25, 1956.

Readjustment allowances for nearly all veterans stopped July 25, 1949.

**More Than Half Train**  
During the past 10 years more than 7,800,000 World War II veterans, more than half of all who served during the war, trained under the GI Bill. Training was from every possible level; from grade school to post-graduate work in college.

Total cost of the program has been \$14.5 billion. Eighty per cent of the money went directly to the veterans in the form of subsistence allowances; nearly all the rest was spent on tuition, and other training costs. Only 5 cents of the dollar went for administration.

The training program is credited, Swenson says, with raising the educational level of the nation by raising both the educational and income level of veterans. According to a Census Bureau study, the average male veteran today has completed more than 12 years of school; the non-veteran male a little less than nine years.

The bureau also discloses that in 1947 the median income of male veterans between 25 and 34 years of age was \$2,401, while the median income for non-veterans was \$2,585.

**GI Income Rises**  
Five years later, however, the median income of the veteran had shot up 40 per cent to \$3,359, while the non-veteran's income increased only 10 per cent to \$2,875. As the result of increased incomes afforded at least in part of the education and training, the veterans alone will within the next 14 years pay off the entire cost of the program.

During the past 10 years 3,600,000 veterans obtained loans valued at \$23.5 billion, \$12 billion of which were guaranteed by the VA. Home loans accounted for 90 per cent of the total. The number of defaulters has been about one per cent.

A recent survey, Swenson said, reveals that 60 per cent received loans between \$10,000 and \$15,000; 30 per cent are paying under \$10,000; eight per cent between \$15,000 and \$20,000, and two per cent over \$20,000.

During the life of the readjustment period 9 million veterans drew allowances totaling \$3.2 billion for unemployment and \$600,000,000 for self employment. Only 900,000 veterans, or 10 per cent of the total exhausted their full rights to this benefit.

This is the result of the 10-year old GI Bill.

### Funeral Today of P. B. Pedersen, 65 Allendale Employee

Peter B. Pedersen, 65, an employee at the Allendale Farm at Lake Villa, died Monday in the Lake

County General hospital after a long illness.  
Mr. Pedersen was born Aug. 7, 1888 in Christianson, Norway, and came to this country in 1925. He had lived at Long Lake since 1927, and for the past two and one-half years has been employed as maintenance man at the Allendale farm. Surviving are two brothers, John of Norway, and Louis C. of Round Lake, and a sister, Emma, also living in Norway.  
The funeral service was held at 1:30 today at the Strang Funeral home in Antioch, and burial was in the Fox Lake cemetery.

### Wayne Joseph Kadlec, 3, Died This Morning

Wayne Joseph Kadlec, three-year old son of George and Lillian Kadlec, died suddenly this morning (Thursday) at the home of his parents at Lake Marie. He was born August 21, 1952 and came with his parents to Antioch one year ago. The Antioch Rescue squad was called but found the child dead.  
An inquiry will be held at the Strang funeral home at 10 a.m. Friday morning. Survivors are his parents, two brothers, Donald and Michael and his maternal grandparents, Mr. and Mrs. Otto Buchholz of Des Plaines.

### Giants Will Wrestle Tomorrow Evening at Round Lake Stadium

Two of the most enormous gent's of wrestling will create their damage Friday night in the second offering of the summer at Round Lake Park. The site is Lake County Stadium.  
Sky Hi Lee stands six feet ten inches and weighs 285 pounds. His hands are the largest in all sports. His brutality is well known by TV fans. This time Lee will oppose a man who is just as fierce, Bobby Nelson, 240-pounder who has broken his neck twice in his career, and it's regarded a medical miracle that he continues to grapple.

Lee is from Canada, a one-time fire-eater in a circus, and Nelson is from Kenosha, Wis., and was a highway cop and U. of Wisconsin grid star before making wrestling his livelihood.

Other bouts on the Lake County program: An Australian tag team encounter, with Rocky Colombo of New York and Billy Goetz of Fox Lake facing judo-artist Mitsu Arakawa of Japan and long-haired Baron Arena of Italy, and an opener that features Milt Olson of Racine, Wis., and Jerry Woods, blond favorite out of Mesa, Ariz.
